## PORTABLE DISSOLVED OZONE DETECTOR

### Features:

- User replaceable battery; Portable power for months of detection
- Stores up to 10 readings for remote sampling
- Simple and repeatable bottle sampling method
- No fouling of sensor; No special probes
- Digital Display; No Consumables, No Chemistries, No Color Matching

### Specifications:

- **Range:** 0.00-5.00 mg/L (ppm in water by volume)
- **Display:** digital readout in .01 mg/L increments
- **Measurement principle:** gaseous diffusion
- **Size:** 79.5 × 39.6 × 34.5 mm (3.13 × 1.56 × 1.36 in)
- **Weight:** 49 grams (< 2 oz)
- **Battery:** User replaceable CR2450 coin battery

**Nanotechnology enabled electrochemical sensor makes dissolved ozone testing fast, simple, and inexpensive!**
