

## Line Card

- Flexible heaters - Kapton, Silicon, Butyl covered heaters that conform to most surfaces.
  - Kapton Encased Heaters
    - Silicone Pads
  - Immersible Butyl Heaters
  
- Sensors - A wide variety of liquid and gas sensors including liquid level, pressure, temperature, leak, and flow.
  - Tube Mounted Liquid Sensor
  - Tank Liquid Level Sensor
    - Liquid Leak Detector
  - Mass Gas Flow Sensor
    - Proximity Sensors
  - PhotoElectric Sensors
    - Fiberoptic Sensors
  
- Micro Fluidic Chips - Chip fabrication from a wide variety of materials and fabrication processes.
  - Standard Chips
  - Connectors to Chips
    - Chip Formats
    - Chip Platforms
  
- Liquid Switching Systems - precision biomedical equipment for the control and injection of microfluidics.
  - Overview of Systems
  - Pinch Valve System
    - Pressure Upgrade
    - Valve Controllers
  - Microliter Dispensing System
    - Dispensing Pencil
    - Temperature Control

Our depth of experience gets you the right product, in less time, at lower cost.
