

MicroFabrications

- Biomedical Implants and Devices
 - Biotechnology Devices
 - Microfluidics
- Capacitive sensors for pressure, acoustics, and vibration
 - Silicon v-grooves for fiber and lens alignment
 - Silicon optical benches
 - Submounts for laser arrays
 - Membrane windows for transmitting radiation
 - Silicon probe tips
 - Silicon grids and apertures
 - Silicon post arrays
- Nanotechnology applications

Medical and Biotech
Developments, Inc.

Serving industries in

- Biomedical and biotechnology instrumentation
 - Telecommunications
 - Fiber optic components and devices
 - Solid state and semiconductor lasers
 - Optoelectronics
- Semiconductor processing and test equipment
 - Displays
- Microelectromechanical systems (MEMS)
 - Microsystems
 - Nanotechnology
 - Industrial controls
- Industrial process equipment
